

MEMO

FROM: Jeff Horn, Chair – College Curriculum Committee
TO: Provost William Clyde
RE: Radiologic Technology Program Proposal
DATE: April 16, 2013

It is my pleasure to inform you that the proposal for Radiologic Technology now has final approval from the College Curriculum Committee. After receiving unanimous, but conditional approval at our 27 March meeting, I was charged with overseeing the minor corrections and suggestions noted then. These corrections have now been made satisfactorily. I have included the revised proposal as submitted as an additional attachment. We believe that this program will be a fine addition to Manhattan College and look forward to your final decision.

cc: Joanne Habenicht, Lawrence Hough, and Dean William Merriman, along with the members of the CCC.
