

October/6/2021

President Brennan O'Donnell and Vice President Matthew McManness:

The Senate endorses the FWC position: "Faculty Welfare Committee strongly advocates for the priority of reinstatement of benefits. First, it would have far more long-term effect. Second, many members of the community make under \$75,000 so the restoration of salaries only affects those who are relatively better paid, while everyone gets these benefits."

Sincerely,

Amy Handfield
Speaker, Manhattan College Senate
