Proposals 2012-1113 through 1115

Dear President O'Donnell:

This letter is in response to Dean Merriman's correspondence of June 5, 2012 with additional email correspondences last date October 18, 2012, requesting registration of the following programs to be offered by Manhattan College:

- Advanced Certificate (Adv. Cert.) in Advanced Leadership Studies
- Master of Science in Education (M.S. in Ed.) in Advanced Leadership Studies
- Master of Science in Education (M.S. in Ed.) in Advanced Leadership Studies (Non Certification)

I am pleased to inform you that on the basis of our review the programs detailed on the attached listing from the Inventory of Registered Programs are registered for teacher education purposes under Subchapter A of the Regulations of the Commissioner of Education (Chapter II of Title 8 of the Official Compilation of Codes, Rules and Regulations of the State of New York) until September 1, 2013. After that date, registration will be extended annually until the Department's next review is conducted.

Please note that the attached Inventory listing records these programs as ineligible for the Tuition Assistance Program (TAP). Only programs offered on a full-time basis are registered as TAP-eligible. Since these master's degree programs and advanced certificate program cannot be completed one year (two semesters), and the advanced certificate is fewer than 24 semester hours, these programs are considered a part-time programs and therefore ineligible for TAP. In addition APTS awards are available for undergraduate study only. The programs are eligible for Veterans Tuition Awards (VTA) for the master's programs only.

New registration is required for any existing curriculum in which major changes are made that affect its title, focus, design, requirements for completion, or mode of delivery. Therefore, I ask that you contact this office prior to initiating a significant change in this program.

We wish you and your colleagues success with these programs.

Sincerely,

Barbara D. Meinert
Coordinator
